

The dashboards

Navigation in a dashboard

1 Selection button (drop-down list) and navigation in different reports

The screenshot shows the Pharma - ALOMAX dashboard for March 2022. A toolbar at the top contains a home icon, a numbered list (1, 2, 3), and a 'Pharma - ALOMAX' title. A dropdown menu is open, showing 'ANTI-FROST' and 'PRO-FROST' options. A data table is displayed with columns: CAM-1, CAM, EV CAM, YTD-1, YTD, EV YTD, CYC-1, CYC, EV CYC. A callout box points to a button in the table with the text: "Button to select a value (TAP or Click)". Another callout box points to a link in the toolbar with the text: "Multi-report navigation. A link between reports can appear in the toolbar (analysis path)". At the bottom, a navigation bar shows 'Pharma - ALOMAX' and 'ALOMAX Curves' with a double-headed arrow between them. A callout box points to this bar with the text: "Navigation in a multi-tab report".

	CAM-1	CAM	EV CAM	YTD-1	YTD	EV YTD	CYC-1	CYC	EV CYC	
	5,8	6,5	0,7	6,3	6,0	-0,3	6,8	6,0	-0,8

2 Row and column filtering

Line filtering

Double TAP in the edit column

Possibility to select and deselect several values

Filtering of the columns

Double TAP on the header

Possibility to select and deselect several values

The screenshot shows a 'Brands' selection dialog. It has a search bar with 'A Z X' and 'A Z' filters, and a 'Select All' button. A list of brands is shown with checkboxes: **MARKET, ALOMAX, DIELE DISTRI PHARMA, LACTALIS, MEAD JOHNSON, MENARINI, NESTLE, NUTRIBEN. There are also radio buttons for 'Marché' and 'Produits'.

The screenshot shows a 'Columns' selection dialog. It has a search bar with 'A Z' and 'A Z' filters, and a 'Select All' button. A list of columns is shown with checkboxes: MARKET WEIGHT, CAM-1, CAM, EV CAM, YTD-1, YTD, EV YTD. There are also radio buttons for 'Month' and 'Year'.

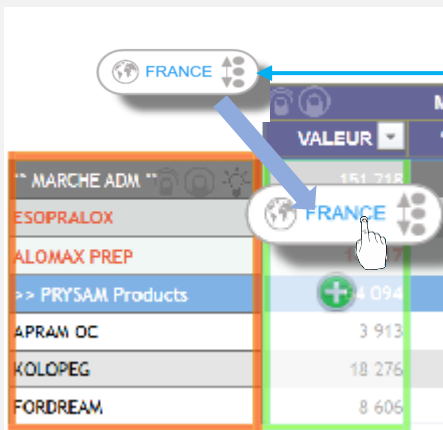

Formatting a dashboard

1 Inversion of dimensions

Hold down the button and drag it to the column to be reversed (orange frame).
Reversing the axes works in both directions.

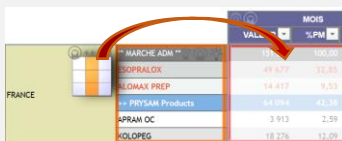

2 Adding a second dimension

LONG PRESS on the button and drag it to the column to be added (green frame +)

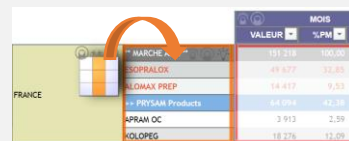

To delete one of the dimensions

LONG PRESS on the column to be removed and drag the to the red frame.

To invert the columns

LONG PRESS on the column to be moved and drag the to the orange frame

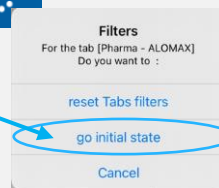

3 Button "go initial state" to return to the state as it was when it was received

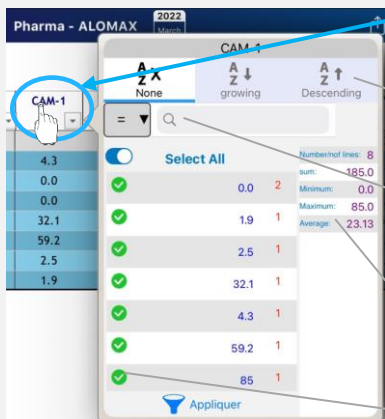

Make a TAP or a click on the small eraser, at the top right of the toolbar

And then « go initial state »

4 Actions on the header

To display the menu of actions on a column: TAP on

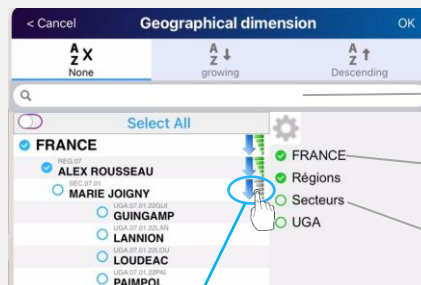

Sort column

Search for values in the column, linked or not to the list of symbols '<', '<=', '=', '>=', '>' to the left of the input field.

Column summary : Nb of lines/Sum /Minimum/Maximum/Average

Filter by value

5 Actions on filters (Geo, Products)

Search for a value

Selected item

Item not selected

Tap on the to select or deselect all lower levels.

In this example: Sector 07.01 and all its UGAs
